

Go Monitor Cloud Platform

The IoT Simplified

*Visualising Sensors, Devices and Machines
Generating Useful Insights from Data*

Any Sensor

Custom built **website experiences** for your team or customers
Accepts data using **industry standard protocols**

Any Industry

Simple and **complex logical processing** supported
Integrates quickly with 3rd party **API data services**

Anywhere in the World

Visualise multiple IoT use cases in just **one single platform**
Alerts and **events tracking** system

Rapid Development

Power and scale of an enterprise grade **cloud SCADA**
